Curb Revs Up Production

(Los Angeles) Since 1984, Curb Entertainment has been a strong and consistent player in the world of independent film production and distribution. Headed by president Carole Curb Nemoy, the company produces about three films a year and acquires an additional six to ten finished films for worldwide distribution.

A division of Curb Records, the largest independently owned record label in the world, Curb Entertainment uses a variety of methods to its finance feature film productions. The company has used co-production ventures with Warner Bros. and Columbia/TriStar in the past and now concentrates on private sources of equity.

Currently, the company is shooting *Water's Edge* starring Nathan Fillion (*Saving Private Ryan*), Chandra West (*Salton Sea*), Emmanuelle Vaugier (*Return to Cabin by the Lake*). Curb is developing a slate of mainstream action/thrillers to be produced on an independent budget. "We look for great stories with wonderful dialogue and universal appeal," says Carole Curb Nemoy.

Curb Entertainment has recently released the critically acclaimed Larry Fessenden film *Wendigo*, *Coastlines* directed by Victor Nunez, *Pipe Dream* starring Mary-Louise Parker and Martin Donovan, and *Kill Me Later* with Selma Blair and Max Beesley.
